(1) confirm that all of the requested elements identified by NYSERDA meet the Data Access Order standards, (2) identify to what extent the requested information warrants confidential treatment and protection from disclosure under the Freedom of Information Law, and (3) identify any additional matters that must be resolved prior to the Joint Utilities providing the requested information consistent with the Data Access Order and, as a result, the Joint Utilities request a 15-day extension, or until June 14, 2023, to provide its initial response to the request.

Based upon the information provided, an extension until June 14, 2023, is granted to the Joint Utilities to respond to the NYSERDA's May 19, 2023 request for data in the Clean Heat Incentive Program. This extension is granted in order to promote the fair, orderly, and efficient conduct of this proceeding.

This ruling will be posted on the Department's website.
